

AB162x Series EVK Product Brief

PRODUCT OVERVIEW

The Airoha AB162x series offers an advanced single-chip solution that integrates baseband and radio for BLE and Zigbee applications. The interfaces include I2C, I3C, GPIO, LED, UART, SPI, and I2S, which can be implemented on the Evaluation Kit (EVK) motherboard.

The EVK is designed for evaluating functions and debugging. Each function can be configured, and firmware parameters can be adjusted via the Airoha configuration tool.

The EVK connects with the Airoha Test Control Board (TCB) to conduct mass production calibration and functional tests using the Airoha Mass Production Tool.

The AB162x series chipsets include the AB1625 and AB1623 models, with each chipset offering support for various features. All the supported features and functions can be implemented on the EVK with the corresponding chipset modules and daughterboards.

BENEFITS

- A flexible power supply block, including USB 5V, DC 5V adapter jack, and a battery +/- connector, providing users with multiple options to configure their design.
- High integration of a variety of interfaces such as SPI, I2C, and I3C to enable connections with corresponding daughterboards and the implementation of each function with the EVK motherboard.
- Convenient audio interfaces such as a microphone & I2S to evaluate the audio performance.
- User-friendly interfaces for power-on, reset, and GPIO control.

TARGET APPLICATIONS

- The implementation and verification of all features and functions that are supported by the AB162x series chipsets, such as:
 - Remote control for various devices
 - Wireless keyboards and mouse
 - EPD / Findmy tag

Figure 1. Block Diagram of the AB162x Series EVK

Figure 2. Function Block of the AB162x Series EVK

FEATURES

Peripheral Connections

- UART, I2C, I3C, keys, TCB interface

Control and Test Points

- Power supply
- Module adaptor board
- Keys and LEDs
- JTAG

Audio Interface

- Digital MIC
- I2S

Exhibit 1 Terms and Conditions

Your access to and use of this document and the information contained herein (collectively this “Document”) is subject to your (including the corporation or other legal entity you represent, collectively “You”) acceptance of the terms and conditions set forth below (“T&C”). By using, accessing or downloading this Document, You are accepting the T&C and agree to be bound by the T&C. If You don’t agree to the T&C, You may not use this Document and shall immediately destroy any copy thereof.

This Document contains information that is confidential and proprietary to Airoha Technology Corp. and/or its affiliates (collectively “Airoha”) or its licensors and is provided solely for Your internal use with Airoha’s chipset(s) described in this Document and shall not be used for any other purposes (including but not limited to identifying or providing evidence to support any potential patent infringement claim against Airoha or any of Airoha’s suppliers and/or direct or indirect customers). Unauthorized use or disclosure of the information contained herein is prohibited. You agree to indemnify Airoha for any loss or damages suffered by Airoha for Your unauthorized use or disclosure of this Document, in whole or in part.

Airoha and its licensors retain titles and all ownership rights in and to this Document and no license (express or implied, by estoppels or otherwise) to any intellectual propriety rights is granted hereunder. This Document is subject to change without further notification. Airoha does not assume any responsibility arising out of or in connection with any use of, or reliance on, this Document, and specifically disclaims any and all liability, including, without limitation, consequential or incidental damages.

THIS DOCUMENT AND ANY OTHER MATERIALS OR TECHNICAL SUPPORT PROVIDED BY AIROHA IN CONNECTION WITH THIS DOCUMENT, IF ANY, ARE PROVIDED “AS IS” WITHOUT WARRANTY OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE. AIROHA SPECIFICALLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSE, COMPLETENESS OR ACCURACY AND ALL WARRANTIES ARISING OUT OF TRADE USAGE OR OUT OF A COURSE OF DEALING OR COURSE OF PERFORMANCE. AIROHA SHALL NOT BE RESPONSIBLE FOR ANY AIROHA DELIVERABLES MADE TO MEET YOUR SPECIFICATIONS OR TO CONFORM TO A PARTICULAR STANDARD OR OPEN FORUM.

Without limiting the generality of the foregoing, Airoha makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does Airoha assume any liability arising out of the application or use of any product, circuit or software. You agree that You are solely responsible for the designing, validating and testing Your product incorporating Airoha’s product and ensure such product meets applicable standards and any safety, security or other requirements.

The above T&C and all acts in connection with the T&C or this Document shall be governed, construed and interpreted in accordance with the laws of Taiwan, without giving effect to the principles of conflicts of law.
